What did you like best about the recitation instruction?

Comments
Jun Hyun was an incredible TA. He explained things very clearly and explained things step by step. He was also a very empathetic teacher. He understood when we didn't understand something, and didn't let us feel stupid for it. This made me and my peers feel more comfortable to ask questions when we were confused (which was ... a lot).
Was able to communicate topics well and kept the pace of the recitation at a good speed to help students remain engaged
Help me to understand the material in lecture well. The logic and proof is pretty clear.
Answering ALL the questions, he is one of the best I have seen as a TA!
Jun Hyun was fantastic at breaking down the concepts we learned in class and making sure everyone was up to speed.

He tries to clarify all materials in an easy way.
Organised and well explained solutions.
He is extraordinarily good at doing his job !
The clear writings and demonstration

If you were running this recitation, what would you do differently?

Comments
