Comments

What did you like best about the recitation instruction?

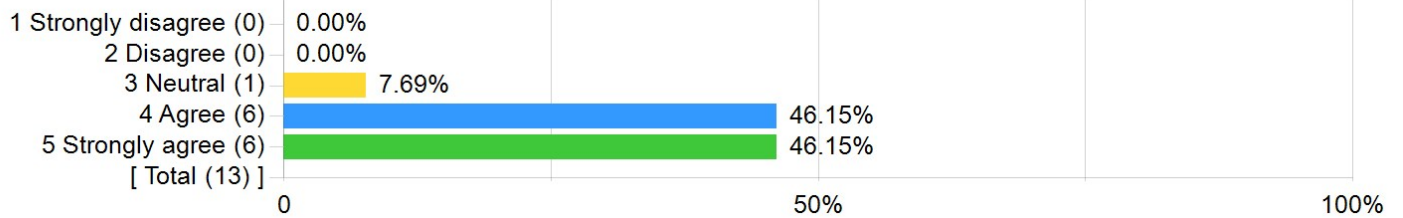

Comments
Practice problems were very useful for understanding class material.
Very comfortable environment
Very realistic of students capabilities and way material was explained.
I liked the interactive recitation games
I like how we got to work through more problems together and I like that the recitation after each test is dedicated to going over the answers.
Nothing. Most of the time I don't go because he's arrogant and rude and disrespectful. He seems like he doesn't want to be there and only because he has to. He points out people's mistakes and makes it known to the entire class by physically pointing them out and saying "Some people don't know what they're doing and messed this up." This university has failed me by allowing people like this to lead a recitation. In case you did not realize it, I was the student he pointed out and its arrogant and I feel like recitations should be optional or at least asynchronous.
I liked the applicable questions we did in recitation to accompany the lecture material. I feel like my learning was enhanced.
Used "games" to help us understand concepts.
It was kept short and to the point.
He went though everything very well, and explained it all in detail to ease our confusion. He helped make clear someone of the material we learned in lecture so we could better understand it. We also went over the tests we took in lecture, and he did an amazing job explaining why the correct answers were correct. Overall, very nice instructor, very patient, and very helpful.
He was able to make all of the topics very understandable.
Amazing job

If you were running this recitation, what would you do differently?

Comments
The examples could have looked more like the examples in class/questions on the exam.
I would be more engaging.
Nothing, it's fine how it is :)
Everything.
Provide more relic life examples
