

## Teaching Survey Spring 2024

### Spring 2024 - Jun Hyun Ji ECON 0100 - INTRO MICROECONOMIC THEORY - 1206 - Recitation

Created Monday, April 29, 2024

Courses Audience: 30  
Responses Received: 10  
Response Rate: 33.33%

## Report Comments

### Included in this report:

- Summary of responses to scaled questions
- Response breakdowns
- Student comments
- Results to instructor added custom questions (if applicable)

### Understanding and using student feedback:

- We have [resources](#) to help you interpret and use results including our [faculty worksheet](#) with guided prompts and space to record summaries of feedback, actions, and outcomes.
- Members of our [Pedagogy, Practice, & Assessment](#) team are available for consultations and can help with:
  - Interpreting OMET results and developing a course of action if necessary.
  - Exploring various methods of assessment to improve teaching.
- In the future:
  - Discuss, teach, and model [giving meaningful feedback](#) with your students and give them multiple opportunities to practice giving feedback.
    - Gather important information about students at the beginning of the term by giving a [pre-course survey](#).
    - Check in with students half way through the term by giving a [midterm course survey](#).
- The [Teaching Center](#) offers multiple resources to support teaching and learning.

## Recitation Questions

---

### Summary: 5-point scale - Strongly Disagree to Strongly Agree

| Question                                                                                                                                         | Results        |      |                    |
|--------------------------------------------------------------------------------------------------------------------------------------------------|----------------|------|--------------------|
|                                                                                                                                                  | Response Count | Mean | Standard Deviation |
| The recitation instructor was prepared for recitation.                                                                                           | 10             | 4.10 | 0.74               |
| The recitation instructor used appropriate examples to clarify difficult concepts.                                                               | 10             | 4.00 | 0.82               |
| The recitation instructor was available to me (in-person, electronically, or both). If there is no basis to judge or not applicable, answer N/A. | 9              | 3.78 | 0.83               |
| The recitation enhanced my understanding of the class material.                                                                                  | 10             | 3.70 | 0.95               |

---

### Detailed Responses

### 1. The recitation instructor was prepared for recitation.

|                    |           |        |    |     |      |  |  |  |  |
|--------------------|-----------|--------|----|-----|------|--|--|--|--|
| 1 Strongly disa... | 0         | 0.00%  |    |     |      |  |  |  |  |
| 2 Disagree         | 0         | 0.00%  |    |     |      |  |  |  |  |
| 3 Neutral          | 2         | 20.00% |    |     |      |  |  |  |  |
| 4 Agree            | 5         | 50.00% |    |     |      |  |  |  |  |
| 5 Strongly agree   | 3         | 30.00% |    |     |      |  |  |  |  |
| N/A N/A            | 0         | 0.00%  |    |     |      |  |  |  |  |
| <b>Total</b>       | <b>10</b> |        | 0% | 50% | 100% |  |  |  |  |

| Mode               | 4      |
| Standard Deviation | 0.95   |

### What did you like best about the recitation instruction?

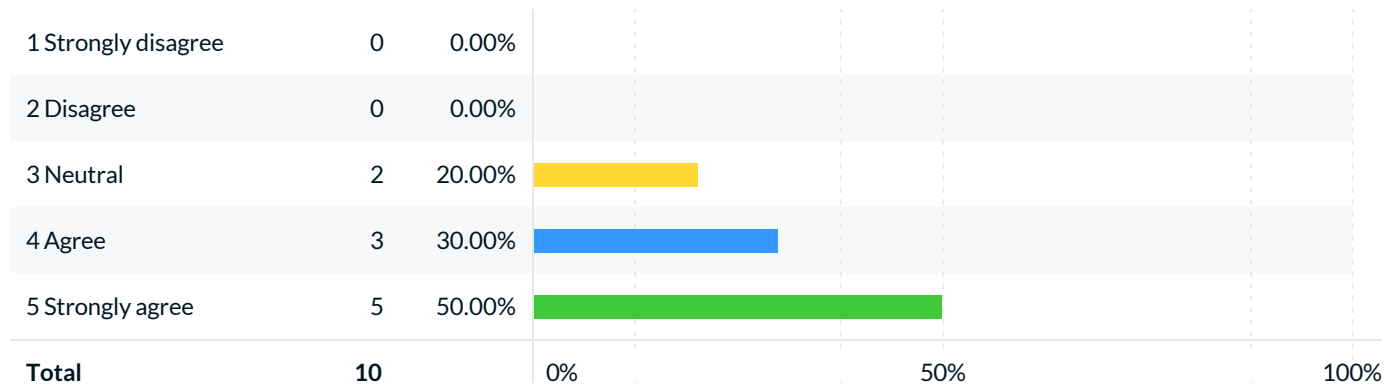

| Comments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| I can review the concepts during class                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| I liked that it was optional and helped us with the homework.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| I liked the slides that were used in recitation, they were very clear and helpful and clarified in class materials. I also like the interactive class vibe, where we were given time to answer/ask questions to make sure we understood the material without judgment.                                                                                                                                                                                                                                                                                                       |
| I liked how he broke down various theories and concepts with visual graphs and explanations for each curve or line. Sometimes it can feel like you are just trying to memorize what the graphs look like without understanding why certain curves are downwards sloping or straight. The TA did a good job of providing detailed explanations as well as using critical thinking questions to master the concepts. He organizes the slide materials very well by showing how one thing causes the next thing, making it easier to understand specific factors impacting XYZ. |
| Clear examples.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| attendance was not mandatory                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

### If you were running this recitation, what would you do differently?

| Comments                                                                                                                                                                |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| I might let my students do more problems.                                                                                                                               |
| I would do more practice problems that we hadn't already been assigned.                                                                                                 |
| Maybe post the slides to canvas to look back on when studying for an exam.                                                                                              |
| Nothing much. I would maybe add more practice problems to help study for exams since it is important to be able to apply the concepts than to simply know them as fact. |
| Explain concepts better through examples, and answer questions when asked instead of leaving open ended responses like "what do you think the answer is "               |

## Diversity and Inclusion

The instructor creates an inclusive learning environment for all students.

| Statistics         | Value  |
