## DSAS Comments

### What did you like best about how the course was taught?

#### Comments

I enjoyed the in class games and that annotated lecture slides were posted.

Give class game which is interesting

The flexibility and understanding of the instructor

I really enjoyed the ability of being able to download the lecture slides, which enhanced my learning capabilities.

The class was super engaging, interesting and fun. I loved the in class games and working on the in class exercises with my group.

The periodic exercises were a good way to keep me engaged even remotely. Though the standards were very high and the out of class work was time consuming, I learned a great deal about the subject matter.

## If you were teaching this course, what would you do differently?

| Nothing, I consider the course, good as it is.                                                                                                                                                                                                                                                                                                                                                                                                            |
| I can't really think of anything. I really enjoyed the way this course was taught. I wish the class was fully in person instead of hybrid.                                                                                                                                                                                                                                                                                                                |
| The lack of answer keys for assignments made me unsure about what I did wrong on the homework assignments often. The midterm (and to a lesser extent the final) questions were significantly harder than anything we learned/ did on the homework assignments. Time constraints for the in-class exercises and quizzes was a bit stressful and the midterm was about 2 times longer than I feel it should have been given the time we had to complete it. |

## Diversity and Inclusion

The instructor creates an inclusive learning environment for all students.
